YURI ANTE

yla10995@uga.edu | linkedin.com/in/yuri-ante-12b7a0432

EDUCATION

Bachelor of Science in Computer Science | University of Georgia, Athens, GA — Expected May 2028

Innovation Academy: 4.49/4.00 — Graduated May 2026

AP Courses: 11 | **GT Dual Enrollment:** Intro to Programming (CS 1301), Intro to Object-Oriented Programming (CS 1331), Linear Algebra (MATH 1554), Multivariable Calc (MATH 2551)

EXPERIENCE

Strategy Enablement Analyst Intern, *VDart* — August 2025 – January 2026

- Cut manual workflow time by 4-6 hours per week for individual sales reps by co-developing an AI-driven Sales Manager that automated redundant CRM and pipeline tasks.
- Reduced sales process time by 20-60 hours per month by designing and testing automated pipelines integrating n8n, the HubSpot API, and Google Sheets.
- Delivered 4 core modules, including a login system, calendar, progress tracker, and course-path content pages, for a cross-platform mobile app by designing the UI and building the front end in Dart and Flutter as part of a development team.

Crew Member, *Surcheros* — January 2026 – August 2026

- Kept order wait times low during peak rushes by running both the hotline and cold line simultaneously, preparing food accurately under time pressure.
- Ensured accurate, efficient checkout for every customer by operating the cash register and verifying order details before completion.
- Cut new-hire ramp-up time by training 2 new employees on kitchen procedures and customer service standards.

LEADERSHIP & ACTIVITIES

Marketing / Operations, *Unite For Change* — September 2023 – August 2025

- Organized the collection of 15 iPads for families in need and established connections with local technology repair shops.
- Streamlined volunteer coordination and outreach partnerships with Fulton County by developing 10+ training materials and email templates.
- Delivered Linux basics training to 200+ students in India by creating and distributing virtual instructional materials online.
- Organized and facilitated a school Halloween event that raised $250 for educational programs.

Co-Founder, Music Production Club — August 2025 – May 2026

- Grew the club to 30+ members by co-founding it and leading weekly recruitment, marketing, and outreach efforts.
- Contributed to 17 released tracks generating 1,500,000+ combined streams across platforms by producing and mentoring members through the beat-making process.
- Taught FL Studio fundamentals and genre-specific production techniques through weekly hands-on workshops.

PROJECTS

Recipe Browser | HTML — Summer 2026

- Built a fully static recipe browsing page by structuring recipe content with semantic HTML for clear, accessible navigation.

Landing Page | CSS, Flexbox — Summer 2026

- Delivered a responsive landing page layout that adapts across screen sizes by building the page structure with CSS Flexbox.

JavaScript Practice Projects | HTML, CSS, JavaScript — Summer 2026

- Implemented full game logic and win-condition tracking for a Rock-Paper-Scissors game using JavaScript, HTML, and CSS.
- Built an interactive Etch-a-Sketch grid application using HTML, JavaScript DOM manipulation, and CSS styling.
- Handled all numerical edge cases in a working on-screen calculator built with JavaScript, HTML, and CSS.
